In October of 2003, my rental property in Hollywood suffered fire damage. I am very thankful that HP Associates was my contractor. From the first moments after the fire, to dealing with the insurance company, to the day they finished, they were friendly, professional and did a fantastic job. The rental is completely upgraded and looks 10 times better than before. As a busy freelance television editor and someone who is not very handy, you can imagine what a great relief it is to have someone patiently explain things to you, be your advocate and take care of things. They will be my first call whenever I need more work in the future.

If you are looking for a contractor, trust me - Che, Bruce and Charles are the guys you want.
