Dear Potential Clients:

It is with great pleasure that I recommend HP. We received a call that one of our income properties had a kitchen fire one late evening. We immediately rushed over to examine the damages to report to our home insurance company. If it wasn't for the representative from HP knocking on our door the next morning, we wouldn't have the slightest idea on how to face a tragedy of this magnitude. HP clearly explained the process to us, quickly secured the property, took care of the paper work and repaired the damages in no time. We highly recommend HP to represent your personal interest in the event of an unexpected disaster.

Sincerely,

Mark & Antoinette Rawls
