Dear Martha,

I wanted say what a pleasure it is to be able to meet with Rodney Mason for the construction of our property. I stop by the house daily to pick up our mail and we were able to see the demolition done already to the home. I wanted to say to Bruce and yourself Martha how thankful I am, even at this early stage in the game, for a company that we personally feel comfortable with and the professionalism their company has shown. If this is what we are to expect in the end then I am positive and exited to see the end result. Mr. Rodney was very professional and again I cannot wait for the end results.

Gabriel A. Herrera
